Men Seeking Skincare Solutions Find Relief at Seasons Medical Spa

What man wouldn't love to unwind with a relaxing spa treatment at Seasons Medical Spa? And just in time for Father's Day, Seasons' first "Just For Men" special offers 90 minutes of treatment for just \$90.00.

"Just For Men" specials begin with a stimulating body brushing, and include Seasons renowned "Tension Tamer Scalp Massage." Then, he can choose to enjoy a soothing Aromatherapy Massage or a rejuvenating Gentleman's Facial, with special hand treatment and shoulder massage. All treatments include a complementary skincare consultation. "Just for Men" is a perfect gift for Dads, but would also be enjoyed by grooms, groomsmen, new graduates, or any man who wants to feel and look great!

Men have discovered that appearance counts. Society and business emphasize healthy, younger looking skin. Cindy Morrow, Spa Director at Seasons Medical Spa says that men of all ages come to Seasons to solve to their skincare problems. "Many of our most regular clients are men," says Morrow. "Younger men find our facials, chemical peels and microdermabrasion beneficial for acne. Everyone wants to look younger, and we are able to offer homecare and in office treatments that are specifically designed for men. Additionally, Botox® and Restylane® injectables help diminish wrinkles and bring a brighter, fresher look."

Two of the most popular treatments for men are Permanent Laser Hair Reduction and IPL Photorejuvenation.

Unwanted hair growth on the back, neck, and between the eyebrows (unibrow) is easily eliminated with a series of laser hair treatments. Quick treatments for nasal and ear hairs make continued trimming unnecessary. Some men with irritated beard growth, ingrown facial hairs, and heavy "5 o'clock shadows" receive laser treatment for their face.

Many men are embarrassed by dark, pigmented age spots or red splotches and rosacea on their face. IPL Photorejuvenation helps erase the brown and red spots and reduce the redness of rosacea.

N. Eugene Morrow, M.D., a diplomat of the American Academy of Dermatology, is the Medical Director of Seasons Medical Spa. As an extension of his dermatology practice, Seasons offers an elegant and welcoming environment for first-time and veteran spa clients.

Seasons Medical Spa is located at 1531 E. Bradford Parkway, Suite 215, Springfield, MO 65804. For more information, please contact Cindy Morrow at 417-882-1133, or visit their website at www.SeasonsMedicalSpa.com.
